

retail store LCD Advertising player

The LCD Advertising player is good choice for user to place it in store to increase your sales and save advertising Budget.

How to time your sales ?

One client is traveling in your store ,and he cannt make their decision which one is the best choice , so he must pich one up to read its' instruction. If you place one lcd advertig player in the products shelf , playing the related advertising video like the ad in TV , they just watch for a while , and then make their choice to take this one , and go to next area to choose other demands. This way is Real and vivid and save your customer's time to travel to your other products place ,and more travelling , and more sales for you . Sales times and times.

How to save your budget ?

You must have hate change your promoting tags everyday, and old paper or plastic tags become Garbage, and then you have to pay cleanning

cost . If you put advertising player in your sstore , there is no necessary to expend the cost on printing and employ staff to put their advertisement flag . Obviously, you save money by lcd advertising player because the traditional advertisiment costs a lot of money on priting and installing their items in your store.

So come to the 21'st century of lcd advertising times to expand your business and increasing the sales.
